Hiring Manager
Cosuno

Dear Hiring Manager,

I am writing to express my strong interest in the Senior Product Designer position at Cosuno. Having followed Cosuno's journey in transforming the construction industry's bidding and awarding processes, I am eager to bring my experience in building complex B2B SaaS solutions to your product team.

With over [Number] years of experience, I specialize in designing "desktop-first" web applications that balance sophisticated functionality with an intuitive user experience. My approach aligns perfectly with Cosuno's mission for the following reasons:

- **Complex B2B SaaS Expertise:** I have a proven track record of designing end-to-end workflows for platforms with multiple user personas, ensuring that technically dense solutions remain user-friendly and efficient.
- **Pragmatic & Value-Driven:** I thrive in fast-paced environments and I focus on identifying high-impact solutions that deliver immediate value to users and the business, ensuring we iterate fast without sacrificing long-term scalability.
- **Communication & Cultural Fit:** Communication: I am a native Spanish speaker with full professional proficiency in English. While my German is currently at a basic level, I am highly motivated to improve it as I integrate into the local ecosystem, and I am fully capable of working and collaborating in a global, English-speaking environment.

Furthermore, my knowledge of HTML/CSS and my experience using AI tools allow me to prototype rapidly and better understand the technical possibilities and constraints of software development.

I am particularly drawn to Cosuno's values of "Raising the bar" and "Being obsessed with the customer". I am confident that my hybrid profile—combining product thinking, high-fidelity visual design, and UX writing—can help elevate the platform to the next level.

Thank you for your time and consideration.

Sincerely,

Yuriaski Leyva Clemente
